National Associated Press to the Star.

Sligo, Nov. 26.—Noon.—After the Magistrate had ordered the committal of Davitt to await his trial a violent scene occurred in the Court room. Rae accused Parnell of arrogating to himself the sovereign rights, and of inciting well-meaning and loyal subjects to acts of treason.

INTER-OCEANIC CANAL

To Receive the Support of the President and Congress.

HOW GENERAL GRANT IS INTERESTED.

National Associated Press to the Star.

New York, Nov. 26.—The Herald Washington special says: It is understood that the President will, in his forthcoming message, allude to the project for building the inter-oceanic canal, and the favor in which the Nicaragua route is held by engineers. He will, it is said, set forth that such an enterprise must be under the control of an American Company, and as such it would be protected by our Government.

Not only will the Message take this ground, but during the first week of the session, if possible on the first day of the meeting of Congress, there will be introduced in both Houses the following joint resolution, with the intention of securing its passage, under suspension of the rules, or at least reach a final action before the holiday recess:

"Whereas, The project for the construction of the Inter-Oceanic Canal, via the Nicaragua route, is recognized as a necessity for the prosperity of the commerce of the world and the development of the marine and commercial interests of the United States; and

"Whereas, Such an enterprise must, of necessity, be considered, as of international utility, under the protection of the Government of the United States; therefore be it

"Resolved, by the Senate and House of Representatives of the United States of America, in Congress assembled, That the Government of the United States pledges to accord full and entire protection to the Company to which be granted a concession by the Government of Nicaragua for the construction of said inter-oceanic canal and will secure to said Company a peaceful enjoyment of the rights conceded by said grant."

GRANT WROTE NO LETTER.

CHICAGO, Nov. 26.—A special to-day from Galena says that it is not true that General Grant has written to Admiral Ammen agreeing to accept the Presidency of the Nicaragua Canal Company. Neither is it true that the position has been directly tendered General Grant. The latter is now deeply interested in the enterprise, as he was during his last Presidential term when the survey was made.

He is in no hurry to commit himself in favor of the project, and the people may rest assured that he will not do so until he finds, on thorough examination, that it is a practicable enterprise. It is just now getting considerable notoriety by having Grant's name mentioned in connection with it.

At the opening of Court yesterday morning at 10 o'clock Judge Gresham charged

the jury in the Mayo case, and after remaining out fifteen minutes they returned with the following verdict: "We, the jury, find the defendant guilty as charged in the indictment." After the verdict was read Mayo placed his head in his hands and wept bitterly for a few minutes, and then arose and began to walk the floor, reciting in a wild manner. Judge Gresham admitted him to bail in the sum of \$10,000, T. W. Emerson; his father-in-law, going on his bond. Senator McDonald, one of his attorneys, made a motion for a new trial.

A SANITARIAN SPEAKER.

Professor Chandler, at the New York Academy of Sciences last night, said that the subject of the care of public health was not of ancient date among the people of the world. The Greeks and Romans had Boards of Health in every city of the empire. One-third of the deaths in New York City are caused by neglect of sanitary measures or ignorance of the conditions of health.

He estimated that at least 7,000 people's lives are sacrificed needlessly each year. The persons who get sick and die and perhaps are not so much to be commiserated as those who get sick and did not die. Chandler discussed the street-cleaning problem and stated that he would have the street-cleaning done by a force of men organized the same as a fire department or police force.
